

3. REVIEW OF CIVIC AWARDS

The Board considered a report which proposed a revised procedure for the process of considering nominations for Civic Awards.

The major improvement suggested was the establishment of a Civic Award judging panel comprising members selected from a wide range of the community, as well as a representative from each Community Board.

All nominations would be received in the first instance by Community Boards, whose recommendations would then go forward to the judging panel for consideration and final decision.

The Board was supportive of the new review process and **decided** that Lesley Keast be nominated as this Board's representative on the judging panel.
