

20. CONTRACT NO 2003/04-10 FOOTPATH RESURFACING VARIOUS CITY STREETS

The Committee received a report from Richard Falloon, Pavement Engineer, seeking approval for the acceptance of a tender for the repair and resurfacing of footpaths in various city streets over a two-year period.

The report noted that only one tender had been received for this work from Pidgeon Contracting Ltd for a total tender price of \$752,823.60 as against the estimate for the work of \$760,000. While only one tender had been received the tendered rates were very similar to the rates provided in another contract for which three tenders had been received.

The Committee **resolved** that the conforming tender of \$752,823.60 from Pidgeon Contracting Ltd be accepted.
