

16. GATED COMMUNITIES

The Committee considered a report provided for its information on the policy issues surrounding the development of 'gated communities'. A copy of the report has also been provided to the Regulatory and Consents Committee for its consideration and will be reported to Council via that Committee.

The Committee **decided** to receive the information and support the holding of a joint seminar with the Regulatory and Consents Committee as a first step to developing a policy on 'gated suburbs'. It was suggested that in addition members of Urban Planning and Growth Special Committee also be invited to the seminar.
