

5. WAITIKIRI DRIVE TRAFFIC CONCERNS

The Traffic Engineer (Community) informed the Board of the outcomes of the 'on-site' meeting to discuss traffic concerns in Waitikiri Drive and sought approval for the installation of some "no stopping" lines. The Board **decided**:

1. That the information be received.
2. That the Police be asked to take further steps to enforce speed limits in Burwood and Prestons Roads and to achieve compliance at the roundabout in Waitikiri Drive.
3. That the Board express its concern to the Refuse Operations Manager at the speed of trucks exiting and entering the Burwood Landfill.
4. That a reduction be sought in the speed limit in Burwood and Prestons Roads in the vicinity of the residential areas.
