

6. CIVIC OFFICES ACCOMMODATION – UPDATE REPORT

The Director of Operations reported on progress in analysing the following options for upgrading or replacing the present office accommodation at the Civic Offices in Tuam Street:

- Option 1 - Build additional space on roof, and refurbish all floors.
- Option 2 - Build additional space on adjacent site (Early Learning Centre).
- Option 3 - Build a new building on an adjacent site.

The Committee **decided** that the staff be requested to pursue the investigation of Option 3 as the preferred option, and to investigate alternatives as to ownership of such a building, and the possible provision of office accommodation in more than one building.
