

## 8. RICCARTON/WIGRAM TRANSPORT AND ROADING COMMITTEE REPORT OF 7 NOVEMBER 2003 MEETING

The Board considered the report of the Transport and Roding Committee meeting of Friday 7 November 2003.

The Committee received reports on the City Streets Kerb and Channel Replacement Prioritisation Process, and the proposed changes to speed limits.

The Committee agreed to circulate a proposal to place a pedestrian island on Waterloo Road, on the road frontage outside Hornby High School.

A request to place no parking restrictions on Chalmers Street was held over as the Committee expressed some concerns about this project not being part of a report on the wider implications of the Mall extensions and its impact on traffic movements and volumes.

A request to support the installation of a school patrol at Gilberthorpe School was also discussed. The Board's recommendation regarding this request is recorded in clause 1 of this report.

The Board **decided** to advise the Sustainable Transport and Utilities Committee that it supported the following projects proceeding to final design, tender and construction:

- Cashmere Road/Hendersons Road intersection improvements
- Springs Road traffic safety improvements

In respect of the Clyde Road (Riccarton Road to Creyke Road) kerb and channel renewal and traffic management project, the Board considered that a further resolution was required (recorded below) but agreed that the balance of the work should proceed.

Accordingly, in respect of Clyde Road, the Board **decided**:

1. That approval be granted for the Clyde Road kerb and channel/traffic management project to proceed to final design, tender and construction.
2. That further consideration be given to the possible widening and/or implementation of other traffic safety improvement measures in Clyde Road should complaints regarding traffic safety and/or accidents in Clyde Road be received in the future.
3. That parking options for the northern side of Clyde Road, between Kirkwood Avenue and Okeover Stream, be developed for the next Transport and Roding Committee meeting.
