

## 8. FORBES AND ANGUS STREETS

The Board considered a report informing it of the outcome of consultation regarding a proposal to enhance the Jackson Creek waterway and open up the entrance to Bradford Park at the intersection of Forbes and Angus Streets. Its approval was also sought to proceed with final design, tender and construction for both the kerb and channel work and the landscaping of the intersection.

It was **resolved**:

1. That the Forbes and Angus Streets kerb and channel project and the landscape proposals for Jacksons Creek and the entrance to Bradford Park proceed to final design, tender, and construction.
2. That the kerb and channel work planned for Angus Street in 2005/06 be brought forward into 2004/05, subject to Ngaio Street being reprogrammed from April 2004 onwards.
