

10. ORBITER – SUBMISSION TO ECAN

The Board **received** a report and an accompanying submission presented by the Board as a deputation to ECan's full Council meeting on 12 December, which requested an extension to the Orbiter services to include the Bishopdale Shopping Centre.

Subsequent advice received was that no changes would be made to the Orbiter route for the foreseeable future.

Although disappointed with the response, the Board reiterated its commitment to continue to lobby for the shopping centre to be included in an adjusted Orbiter service and accordingly, **decided** to refer the matter to its Works, Traffic and Environment Committee for further consideration.
