

3. **ENVIRONMENT CANTERBURY:  
CHRISTCHURCH AREA COMMITTEE**

The Board was in receipt of a letter from Environment Canterbury, in which they proposed the setting up of a Christchurch Area Committee.

The purpose of the Committee is *“to build and maintain the highest and best co-operative relationship with the community of Christchurch, encompassing the regional and legislative responsibilities of Environment Canterbury”*.

The Committee would be a Standing Committee of Environment Canterbury.

The Board was invited to become a member of this Christchurch Area Committee by nominating one representative of the Board to join the Committee.

The Board **decided** to accept the invitation from Environment Canterbury, and agreed that Neville Bennett would be its representative on the Committee.
