

2. HULVERSTONE DRIVE STOPBANK

The Drainage Engineer updated the Board on the results of consultation with Avondale residents about the proposed Hulverstone Drive stopbank construction. The Board **decided**:

1. That the information be received.
2. That the Parks and Waterways Unit investigate concerns raised by Hulverstone Drive residents of flooding through the drainage system, the removal of flag irises from the riverbank, and erosion issues.
3. That a further report be provided concerning a possible stopbank on the western part of Hulverstone Drive.
