

3. DRAFT COMMUNICATION POLICY

Kay Carston (Team Leader, Communication Representatives) spoke to an updated draft document.

The document signalled that to achieve a consistent and readily identifiable approach to communication the draft needed to be aligned with the draft consultation policy and other relevant internal policies and standards.

The Committee made some alterations and amendments and **decided**:

1. That the Committee adopt the draft communication policy document as amended.
2. That the draft communication policy be circulated to all Standing Committees and Community Boards for comment and feedback to the Council via the Strategy and Finance Committee.
