

2. CENTAURUS ROAD AND ST MARTINS ROAD – COLOMBO STREET TO GAMBLINS ROAD

The Board considered a report informing it of the consultation responses for this project and the project team's responses to the community's concerns, and seeking the Board's recommendation to the Sustainable Transport and Utilities Committee to proceed to final design, tender and construction with the altered concept plan.

Mr Besley, a resident of Centaurus Road, was provided with an opportunity to advise the Board of his concerns.

The Board **decided** to recommend to the Sustainable Transport and Utilities Committee that the altered concept plan as shown on the plans attached to, and described in the report, proceed to final design, tender and construction.

(Note: Lynda Carter and Sonia Gill recorded their votes against this decision.)
