

11. CHRISTCHURCH METROPOLITAN TRANSPORT STATEMENT

Officer responsible City Streets Manager	Author Paul Roberts, Transport Planner - Network, DDI 941-8618
--	--

The purpose of this report is to seek approval to the brief for the Metropolitan Christchurch Transport Statement (MCTS).

BACKGROUND

The seminar for the Sustainable Transport and Utilities Committee held on 15 May 2003 introduced the proposed format of this important project. The Committee at that seminar signalled its broad agreement with the proposed scope and timeframe of the project.

Since that time, the proposed brief (attached) has been developed further and formal approval is now sought, to allow work to proceed.

This report has also been provided to the Urban Growth and Development Special Committee for its information and comment.

Recommendation: That the attached brief for the Metropolitan Christchurch Transport Statement be approved.
