

14. LIVING STREETS - INTRIGUE AND UNCERTAINTY TOUR

The Committee considered a report from Paul Burden, Living Streets Advocate, City Streets Unit seeking approval to bid for inclusion in the “September - November 2003 Intrigue and Uncertainty Tour”.

This related to a proposal received from Creative Communities International, Mr David Enwicht, Brisbane for a study on alternative methods of traffic calming. It was suggested that the proposal should involve a street with a school frontage and Tuckers Road, for which \$242,000 is budgeted in the 2003-2005 financial period for implementation of a Living Street, was suggested as a candidate for the evaluation study.

The Committee **decided** that a bid be put forward to include Tuckers Road in a five day “Intrigue and Uncertainty Tour”, at a cost of \$9,000.
