

3. AREA PLANS PROGRAMME

A report from the Area Development and Planning Team Leader recommended a prioritised programme for completing the development of Area Plans over the next two years, as a follow up to the Committee's seminar on this topic on 30 April 2003, which explained the process by which these priorities have been identified.

The Committee **decided**:

1. That the Area Plans Programme in attachment 1 be adopted.
2. That the Committee host for interested elected members a seminar on the matters covered in the report.
3. That area plans be referred to the Committee for consideration on an individual basis.
