

### 3. WAIMAIRI ROAD – PROPOSED CYCLE LANES

The Board was advised that the publicity pamphlet for the proposed installation of cycle lanes on Waimairi Road between Tudor Avenue and Westburn School was soon to be distributed.

Details of the intended work were outlined in the accompanying officer's report and it was indicated that the feedback received would be reported to the Board in August for recommendation to the Sustainable Transport and Utilities Committee thereafter.

Comment was made about the option of applying a 40 km/h zone along this section of Waimairi Road and staff undertook to report on this aspect in August.

The Board **received** the information.
