

9. DOG TRAINING COURSES

The Committee considered a report from Jane Donaldson (Environmental Services Manager) providing information on the value of the various dog training courses held throughout the city as a possible method of encouraging Responsible Dog Owners and reducing the time taken by them to achieve the Council's Responsible Dog Owner status.

The Committee **resolved** that further consideration be given to this issue by the Animal Control Team, noting that further matters may arise as a result of the review of the Dog Control Act 1996. The Committee further **resolved** that Mr Steel (Veterinary Surgeon) be thanked for his presentation to the Committee and his continuing good work in animal welfare.
