

7. STYX MILL CONSERVATION CONSULTATION PROCESS

The Committee considered a report which backgrounded the release of the Vision document in respect of the Styx Mill Conservation Reserve prior to its consideration by the Committee.

The Committee **decided**:

1. That all draft management/development plans and/or vision statements (including indicative costings) for metropolitan reserves be referred to the Committee for approval prior to public release, after prior consultation with the relevant Community Board.
2. That submissions/objections to the Styx Mill Conservation Vision document be heard by the Committee.
