

2. GREERS ROAD – PROPOSED KERB AND CHANNEL RENEWAL

The Project Consultation Leader, City Streets Unit, reported on the feedback received and the alterations requested to the previously circulated concept plan of the proposed renewal of the kerb and channel and associated works in the section of Greers Road within the Fendalton/Waimairi community.

The specific aspects of the work requiring a recommendation to the Sustainable Transport and Utilities Committee were outlined in the accompanying report.

The Board **decided** that it be recommended to the Sustainable Transport and Utilities Committee that the proposed kerb and channel and associated works in Greers Road be approved for construction.
