

1. INSTALLATION OF POSTER BOLLARDS

The Board considered a report seeking the Board's approval for the placement of cylindrical poster bollards on legal roads.

The Board **decided** that a decision on the placement of the poster bollards be deferred until after consultation with appropriate parties and to allow the Director of Legal and Secretariat Services to:

1. provide a legal opinion on whether or not the Board could defer its decision on the placement of poster bollards pending the development of a formal process to monitor the placement of posters and eliminate illegal sites; and
2. clarify the Board's terms of reference and delegations in relation to the placement of poster bollards on legal roads.
