

5. TREE PLANTING PROPOSALS NEW BRIGHTON COASTAL RESERVES

The Committee considered a report from Walter Fielding-Cotterell (City Arborist) signalling long term maintenance and replacement planting proposals for the New Brighton coastal reserves extending from Broad Park and South Brighton Domain.

The Committee **decided**:

1. That the proposed replanting plans for South Brighton Domain proceed as a proposal for consultation with the local community.
2. That a combined seminar with the Burwood/Pegasus Community Board be held on the strategic direction for the maintenance and replacement of trees in the New Brighton coastal reserves extending from Broad Park to South New Brighton Domain.
