

11. COMMUNITY GARDENS - DRAFT POLICY REPORT

The Board **received** a report from the Sustainable Christchurch Team Leader on the draft policy document outlining some strategies to increase capacity and foster strengthened communication between existing/developing community gardens, the Christchurch Community Gardens' Association and the Christchurch City Council.

The Community Gardens Advocate advised the Board that this document was very much a draft policy discussion paper and she was obtaining feedback from all the Community Boards before taking it to the Parks and Waterways staff.

The Board **decided** to endorse the draft community gardens policy document enabling the Community Gardens Advocate to present the draft policy to the Parks Gardens and waterways Committee with the suggestions from the Boards.
