

4. DEPUTATIONS BY APPOINTMENT

(b) Residents - Englefield Road

Trevor Isitt and Pam Donnelly, representing the Belfast Residents' Association and the Englefield Support Group, addressed the Board regarding residents' concerns with excessive speed of motor vehicles in the Englefield Road area. They stated that:

- (i) A vehicle had recently been clocked travelling at 119 kph past the entrance to the school playground.
- (ii) An increasing number of cars and heavy vehicles were using Englefield Road as a through road.
- (iii) In particular, heavy vehicles were using this as an alternative route since traffic lights had been installed at the corner of Johns Road and Main North Road.

Monitoring options (Neighbourhood Speed Watch and Speed Trailer) were discussed and it was recommended that the speed trailer be temporarily located outside the children's playground.
