

12. COMMUNITY GARDENS - DRAFT POLICY REPORT

The Board considered a draft policy document outlining some strategies to increase capacity and foster strengthened communication between existing/developing community gardens, the Christchurch Community Gardens Association and Christchurch City Council.

Wendy Kilgariff was in attendance to discuss the draft policy and answer questions. She explained this was the first draft and a final draft would come back to the Board.

Board members commented on various organisations which could be involved, relationships with the Boards and community development opportunities through community gardens.

The Board **decided** to refer comments to Wendy for consideration for inclusion in the final draft.
