

2. NEW BRIGHTON REVITALISATION UPDATE

The Senior Professional - Environment updated the Board on the implementation of the Master Plan for the revitalisation of New Brighton and sought support for a Registration of Interest document for inviting submissions for developments on the foreshore at New Brighton. The Board **decided:**

1. That the Board recommend to the Property and Major Projects Committee that the Registration of Interest document be approved as being appropriate for seeking submissions for developments on the foreshore at New Brighton.
2. That urgent consideration be given to returning Union Street (between Seaview Road and Beresford Street) to two-way traffic.
