

6. CANTERBURY JOINT STANDING COMMITTEE (CJSC) CONSTITUTING AGREEMENT - REPORTING TO MEMBER COUNCILS

The Committee considered a report seeking comment and feedback from member councils on the arrangements which should apply in respect to the formal reporting back to member councils on an annual basis on the exercise of the Canterbury Waste Subcommittee's functions.

The report noted that it would be appropriate for some form of reporting back to be made prior to the conclusion of the 2003 year which could either be by way of a seminar or by report on the main issues considered by the Subcommittee, which could then be tabled for information and discussion with member councils.

The Subcommittee **decided** that an appropriate written report be provided as the preferred means of reporting back.
