

### 3. CORRESPONDENCE

The Subcommittee received a letter from Mr Garry Jackson, Chairman, Canterbury Waste Action Group Inc, in which he sought reinstatement of the community participation fund, originally approved in 1999 to research issues related to the proposed "Trig Site" in the Selwyn District Council area and in addition a grant of \$150,000 to the Canterbury Waste Action Group to reimburse some of the costs in relation to their current appeal before the Environment Court in respect to the Kate Valley Regional Landfill.

A copy of the interim reply to the Group from the Chairman, Councillor Denis O'Rourke, dated 24 October 2003 had been previously circulated with the agenda.

The Subcommittee considered the correspondence from the Action Group and it was **resolved** to formally confirm the content of the letter of 24 October 2003 to the Canterbury Waste Action Group from the Chairman and to decline the requests from the Group.
