

3. QUARTERLY SUMMARY OF GRAFFITI AND LITTER COMPLAINTS

The Board received a report from the Community Technical Adviser regarding 'requests for service' relating to graffiti and litter received by the Council for the three months from 1 July 2003 to 30 September 2003. The Community Technical Adviser advised that if the Graffiti hotline was in use, people should ring the Council phone number (customer service). He also advised that Community Watch are very interested in becoming involved with the reporting of graffiti.

The Board **decided:**

1. That the information be received.
2. That staff investigate the reporting of graffiti via email.
3. That the community be encouraged to report graffiti using the graffiti hotline.
4. That an incident sheet for graffiti and requests for service be developed for Community Watch to use. This to be reported back to the Papanui Community Technical Adviser.
