

## 9. REQUEST FOR REMOVAL OF STREET TREE – 15 WOODBRIDGE ROAD

The Board considered a report by the Parks and Waterways Manager on a request from Mr Ray Richardson for the removal of a street tree outside 15 Woodbridge Road. Mr Richardson is subdividing the property, and proposes to install two separate entrances, one of which would require the removal of a lime tree planted in the street in the 1930s.

The report advised that the tree was in a healthy condition and was an amenity asset in a well-established streetscape, and should be retained.

The Board **resolved** to decline the application for the removal of the tree, and asked that Mr Richardson continue discussions with Council officers for alternative access to the site.
