

### 13. HULVERSTONE DRIVE STOP-BANK

The Drainage Engineer made a recommendation to the Board on the construction of a stop-bank along Hulverstone Drive. The recommendation was: *That the Council proceed with construction of the Option 3 Hulverstone Drive stop-bank from Avondale Road to Anzac Drive.* The justification for a stop-bank was questioned, given the information presented on the level of flooding risk.

On being put to the meeting, the recommendation was declared **lost** on division no 1 by 6 votes to 3, the voting being as follows:

**For (3):** Burt, Rowlands and Williams.

**Against (6):** Andrews, Evans, Hammond, Kellaway, Lea and Sheriff.

The Board **resolved** that staff investigate the installation of a Red Valve on the stormwater drainage outfall at the intersection of Briarmont Street and Hulverstone Drive for flood protection in that area.

[Alister James declared an interest in and took no part in the discussion or voting on this clause.]
