

6. ST ALBANS PRESCHOOL

The Committee considered a report from Callum Logan (Property Planner) on progress to date in locating a suitable Council owned site for a replacement preschool facility for the St Albans Educare Preschool.

Prior to commencement of the meeting the Committee undertook a site visit to view the Council's property at 278 Westminster Street. An additional report was also tabled at the meeting showing various childcare and preschool facilities currently existing within the proposed area.

The Committee **resolved**:

1. That the report be deferred and that officers report back to the 21 November 2003 meeting of the Property and Major Projects Committee on options and issues associated with use of the Westminster Street depot.
2. That the report include consideration of other Council-owned sites that may be suitable for a preschool facility in the area including Rutland Reserve.
