

1. DRAFT COMMUNICATION POLICY

Together with its work on the Consultation Policy (adopted by Council at its June 2003 meeting), the Consultation and Communication Special Committee has been involved in the preparation of a Communication Policy.

The draft policy aims to achieve a consistent approach to communication. It also recognises the need to be aligned with the consultation policy, and other relevant internal policies and standards.

Dorothea Brown was in attendance to discuss the draft.

The Board **received** the information and confirmed its support for the draft Communication Policy.
