The purpose of this report is to seek the Council's confirmation of further submissions to the Banks Peninsula Proposed District Plan Variation No 2 - The Rural Zone. Submissions to this Variation were confirmed by the Council in October 2002.

The Council's further submission, as tabled, also focuses on cross boundary matters, consistency between district plans on the Port Hills, more certainty and clarity for landscape protection areas and indigenous vegetation.

Further submissions must be lodged by 3 October 2003.

**Recommendation:** That the Council confirm the Urban Planning and Growth Special Committee's action in lodging further submissions on the Banks Peninsula Variation 2 Rural.

(Note: Councillor Broughton took no part in the discussion and decisions on this matter.)
