BROCKENHURST STREET - TRAFFIC ISSUES

Frank Webb, Maude Boyd and Ann Turton, were in attendance to summarise the Brockenhurst Street road safety concerns expressed at the public meeting held on 11 June 2003. Representatives from Housing New Zealand and the Police were also in attendance.

The residents raised concerns about the increased volume and speed of traffic through the Brockenhurst Street and Wainoni School area since the closure of Eureka and Carisbrooke Streets for the Woolston/Burwood Expressway. They also expressed concern at dangerous driving by some local residents. Traffic calming measures were requested.

A separate issue was raised about the difficulty in exiting Hampshire Street onto Wainoni Road because of the bus stop near the corner obstructing vision.

The Board's decision is recorded under Part C, clause 11 of this report.
