

3. SALTAIRE STREET - A LIVING STREET

The Living Streets Advocate provided information to the Board concerning the Living Streets Project scheduled to occur in Saltaire Street and sought approval to the proposed "Collaboration" process. The Board **decided:**

1. That the information be received.
2. That the Board support the collaboration process for the Saltaire Street Living Street Project as outlined in the report, taking into consideration deferral of the All Ears Listening Workshop to August 2003 and completion of work up to Stage Four prior to November 2003.
