

2. DEPUTATIONS BY APPOINTMENT

TRAVIS ROAD TRAFFIC MANAGEMENT PLAN

Robyn and Peter Thew, from the Burwood Pharmacy in Parnwell Street, were in attendance to comment on the proposed Travis Road Traffic Management Plan. They opposed the proposed long term changes to the intersections of Parnwell Street with both Travis Road and Bassett Street. Their concern was that the changes would drastically reduce the traffic flows past the pharmacy and access for customers, with over 50 per cent of customers coming from areas north of Travis Road. They considered the changes, in combination with impending changes to the prescription dispensing system, could potentially result in the pharmacy's closure.

The deputation requested that the plan be revised to allow for left turns from Parnwell Street into Travis Road and right turns from Travis Road into Parnwell Street, and for the intersection of Parnwell and Bassett Streets to provide no impediment to entry into Parnwell Street.

The Board's decision is recorded under Part B, clause 3 of this report.
