

## 7. DAMAGE TO ADSHEL SHELTERS

The Chairman took the opportunity to brief members on the discussions which he recently had with senior management from Adshel and advised that a multi-faceted approach of establishing a hot line to allow neighbours to report damage, random use of video cameras and publicity posters was to be undertaken in order to try to reduce the significant damage which had recently occurred to glass panels in the Adshel bus shelters in Christchurch.

The opportunity was taken to discuss this issue more fully and the Committee indicated its support for the proposed measures and it was **decided** that the matter be reported back in due course.
