

## 6. DEPUTATIONS BY APPOINTMENT

Mr Peter and Robyn Chew, Burwood Pharmacy

Mr and Mrs Chew attended to express their concerns at the proposed Travis Road Traffic Management Plan and in particular the impacts the long term proposal would have on their Pharmacy located in Parnwell Street.

They provided background to their business, the service it provided to the community, their customer base and expressed concern that a reduction in traffic on Parnwell Street, which is anticipated to result from the longer term proposed alterations to the exit of Parnwell Street onto Travis Road, would have a detrimental effect on their business. They advised they relied heavily on ready access, good parking and passing motorists for their trade and requested that the option of lights at Parnwell Street be considered again. They felt that a significant volume of traffic used Parnwell Street as a direct access to the ring road and supported the location of traffic lights at Parnwell Street as opposed to Bassett Street.

The deputation from Mr and Mrs Chew was considered in association with clause 10 of the agenda on the Travis Road Traffic Management Plan.
