

# **NOTICE OF APPLICATION TO ENVIRONMENT COURT**

Notice is hereby given that Christchurch City Council has made application to the Environment Court for declaration and enforcement orders to correct errors on planning maps 23A and 30A of its proposed District Plan. The underlying zoning of an area of land designated for Airport purposes adjacent to Avonhead Road and Grays Road should, in the Council's view, be Rural 5 and not Special Purpose (Airport) as is currently shown on the planning maps. The Rural 5 zoning was part of the Council's decisions publicly notified on 8 May 1999 but the planning maps show the zoning of this land as Special Purpose (Airport). The Council is now seeking orders from the Court to amend the zoning of the subject land on planning maps 23A and 30A from Special Purpose (Airport) to Rural 5.

A copy of the Council's application and supporting documents, including a plan showing the subject area, together with the Court's minute directing this public notification, may be obtained during normal opening hours from the Environmental Services counter, 2nd Floor, Civic Offices, 163 Tuam Street, Christchurch, or from any of the Council's Service Centre offices. For details of your nearest Service Centre, please telephone 371 1999.

Any person who wishes to participate in these proceedings should file in the Environment Court a notice in accordance with sections 271A and/or 274 of the Resource Management Act 1991. The address of the Environment Court is P O Box 5027 Wellington.

Dated at Christchurch this 13th day of December 2001.

**Jane Donaldson**  
**Environmental Services Manager**
