--	--

The purpose of this report is to inform the Board of the proposed programming of Greenspace capital projects within the Hagley and Ferrymead wards during the 2004/05 financial year. Where applicable, timeframes for the various stages of each project are also indicated.

A schedule is attached setting out individual project details. In addition to the listed projects from the Annual Plan, the schedule also includes details of projects carried forward from last financial year, and any projects funded from city wide allocations, such as "Lighting" and "Path Reseals".

The concentration of effort for the initial period of the financial year is to finish off the projects carried forward from 2003/04, and to implement any winter and spring planting projects. In addition to this we are currently arranging design and consultation for the other works on the programme.
