

2. OCEAN OUTFALL

9.30AM-11.30AM

The purpose of this seminar is to provide an update on the Ocean Outfall project. This presentation will cover the following aspects of the project:

- To update the status of the resource consent process.
- To inform the Council about preferred hydraulic designs.
- To recommend an amendment to the procurement strategy to design construct.

Presented by Jane Parfitt (General Manager City Environment) and City Water & Waste Unit staff.
