

## 6. TEMPLETON SCHOOL, ASSISTANCE TOWARDS COMMUNITY POOL USAGE

This is a late edition to our agenda.

The Templeton School are using the local community pool but are having to pay the Council for this, as the season has finished.

An invitation has been extended to the school Headmaster Peter Bradley and the Council's Recreation Facilities Manager John Filsell to attend today's meeting to talk through the issue.

Whilst the question of suburban pool open season might need to be discussed, the issue here today is perhaps for the Community Board making a financial contribution to the school to cover the cost of their continued use of the community pool.

If additional information is received prior to our Board Meeting (to assist in the deliberation of this matter) it will be circulated directly to members.
