

### 3. UPDATES ON ISSUES

- **Drag Racing Progress** (Steve Batey)

The Pegasus Bay Drag Racing club has organised an extra "Street Car" Drag Race meeting this coming Sunday afternoon, they have a joint venture with a third party to help promote this meeting, on three radio stations plus print media. This weekend will also see the Burn Out Pad at the Ruapuna Speedway being used, this is on Saturday evening, to be in conjunction with the Drag Meet Sunday.

I have completed some research from overseas, and found some very interesting programmes that are very successful at combating "Illegal Street Racing".

These are quite comparable to the problems we have here in Christchurch.

I will collate and put this information together with the various reference material for the coming meeting.
