

2. CENTRAL CITY REVITALISATION - PROPOSED STAGE II STRATEGY

9.30AM-11.30AM

This seminar will discuss the proposed Stage II Strategy for the revitalisation of the central city. The Strategy represents the next installation in the Council's 25-year programme to reinvigorate the heart of our city.

The proposed Stage II Strategy reaffirms the vision and objectives for the central city that were established under the Stage I Strategy and adopted by the Council in 2001. It includes a comprehensive work programme for the Council to implement over the next five years, and identifies priority projects by which the Council can deliver the greatest benefit to the central city over this time.

The outline for Tuesday's seminar is:

- Introduction to the Central City Revitalisation Project - the Mayor, & the Strategy and Planning Group Manager, Mike Theelen
- Revitalisation scene setting and key central city issues - Miranda Charles
- Central city priorities and proposed work programme - Maurice Roers
