

6. DEPUTATIONS BY APPOINTMENT

SOUTH NEW BRIGHTON SCHOOL STUDENTS

On behalf of the school, seven students will be in attendance to address the Board with concerns about traffic issues outside the school, especially once the ocean outfall construction starts.

The Board Chairperson, accompanied by Joy Kingsbury Allen (Schools Coordinator, Streets Promotions and Education) and John Moore (Project Delivery Team Leader) met with the Principal (Margaret Trotter) on Tuesday 28 March.

There was a good discussion about the concerns that the school has about the safety of their children while the ocean outfall is being constructed. Advice was given about crossing wardens.

The contractor is required to have a community liaison person on-site.

The students wish to inform the Board of their concerns, however, with a powerpoint presentation.
