

3. CENTRAL CITY REVITALISATION

This seminar provides a biannual update on the progress made in implementing the Central City Revitalisation Strategy. In September 2006, five key priorities were adopted for the central city. These priorities are:

- to increase the residential population
- to grow our business and commercial sector
- to enhance vital public spaces
- to redevelop underutilised sites
- to improve our transport network

Staff will report on progress in meeting these priorities. In particular, the topics to be covered are as follows:

Update on progress in meeting 2006/07 central city targets - Mike Theelen, Maurice Roers, Dave Hinman, and Miranda Charles

Update on design development for City Mall renovation - Jane Parfitt, Clarrie Pearce, Ross Herrett
