

**3. POSTER BOLLARDS INSTALLATION AND REVIEW OF POLICIES
FOR STRUCTURES ON STREETS AND ROAD STOPPING**

1.30PM-3.30PM

Presenters: Weng-Kei Chen (Asset Policy Engineer) and Robert O'Connor (Solicitor)

1. Poster Bollards

The purpose of the seminar is to seek further feedback from elected representatives prior to staff reporting to the Council for decision.

Phantom has a contract with the Council to install 100 poster bollards in the city and to date 44 have been installed. The company is applying to the Council for 17 sites. Five affected Community Boards have commented on bollards in their areas and comments have been missed.

The seminar will cover the background information, proposal location and way forward.

2. Private Use of a Legal Road - Review of Council Policies and Practices

The review was requested by the Council in June 2006.

The presentation will cover:

- Why the Council approves the use of legal road for private purposes.
- Existing policies, practices, delegation and bylaws relating to private use of legal roads.
- Suggestions for change.
