1. APOLOGIES

2. EARTHQUAKE PRONE POLICY

11AM – 12 NOON

Presenter: Derek Anderson, Chairperson of Christchurch Heritage Trust with other members in support.

The seminar is to give the Christchurch Heritage Trust the opportunity to further explain their submission about the potential impact of the Earthquake Prone Policy on Heritage Buildings in Christchurch and methods that might be employed to help owners preserve these buildings - the submission was initially presented as part of the Annual Plan submission process.

A copy of the submission originally presented is separately circulated.

3. TRAM EXTENSION STUDY PLAN

1.30PM – 2.30PM

Presenters: Dave Hinman and Stuart Woods

The seminar will report on the outcome of the study requested by the Council in December 2006 following consultation on City Mall refurbishment. It will also give an update on the issue of the concrete base and tracks in the High Street part of the mall. It is proposed that this be followed up with a formal report to council on 20 September 2007.

Brenda Bisley from Maunsell Consultants will also be in attendance and other key stakeholders have been invited – Christchurch Tramway Limited, City Mall Association, Ecan, the Heritage Tramways Trust and Sean Whitaker (City Mall Project).
