

3. HEALTHY CHRISTCHURCH 2007

1.30PM-2.30PM

Presenters: Evon Currie, Carole Evans & Selwyn Maister

The Christchurch City Council joined together with the Christchurch School of Medicine, Ministry of Health, Pegasus Health, Te Runanga O Ngai Tahu to form Healthy Christchurch which was launched in 2002. Since then Environment Canterbury has come on board as the seventh sponsoring organisation. This is a collaborative initiative focused on making Christchurch a healthy city. Following the report back to the champions in 2006 Healthy Christchurch was asked to present to Councillors on work in progress with a particular focus on how Council decisions have an impact on the community outcome of creating a healthy city.
