1. APOLOGIES

2. SURFACE WATER

- | | | |
|-------|---|-------------------------------------|
| (i) | Introduction to Christchurch's Surface Water Issues
An overview of Christchurch's river monitoring sites, and monitoring results to date. | Richard Holland
and Paul Dickson |
| (ii) | CREAS (Christchurch River Environment Assessment System)
Findings of several years' river survey in Christchurch. A comparison of Christchurch's stream biology in the 1980s with our current stream biology. | Rachel Barker |
| (iii) | Roads and Berms
Recent findings on the use of coal tar in Christchurch roads, and the effects of (PAHs) hydrocarbons on our streams. | Steve McNeill |
| (iv) | Water Quality Status
Water quality results from Cashmere Stream/Aidanfield. | Richard Holland |
| (v) | The Disappearing Avon
A personal view from Richard English (engineer and resident living in Avonhead), and an alternative finding from a peer review. | Graham Harrington |
| (vi) | Conservation Covenants
Protection of Council's waterway restoration work on private property. | Eric Banks |
| (vii) | Conclusion | Richard Holland |

CATERING

Afternoon tea will be provided in the Chamber at 3pm.
